

QUALITY SERVICE & RETURN TO WORK

Proactive Medical Case Management:

- Aggressive claim management from the date of injury
- Timely treatment promotes quicker recovery and a safe, effective return to work

Sheakley's Ohio BWC Case Management Programs:

- Nationally accredited for Case Management (URAC)

Injury Trend & Injury Specific Reporting:

- Identify injury frequency and type, then assist in comparing your data to others in your industry
- Help coordinate work safety & injury prevention programs to limit or prevent future injuries
- *The best injury is one that never happens!*

Return-to-Work Strategies:

- Strategic plans get injured workers back on the job as quickly and safely as possible
- Utilizing Light-Duty Job Placement, Field Case Management services, Modified-Duty Task Lists, & more

Client Relations Manager (CRM):

- Your personal consultant to help manage workers' comp issues and identify programs that may reduce your costs (*injury prevention, health & safety programs, transitional work programs, etc.*)
- Reviews, analyzes, and assesses your business needs and assists in building relationships with experienced occupational medical providers in your area for optimal return-to-work results

Integrated Therapy Program:

- Aggressive therapy program promotes both transitional work and on-site therapy
- Allows injured workers to recover while remaining on the job, minimizing lost productivity and maximizing safe work tasks

Employer Disability Advisor (EDA):

- Board-certified physicians specializing in occupational, rehabilitative, and sports medicine
- Consults with employers to provide peer-to-peer contact with the injured workers' treating physician, facilitating an added layer of physician involvement
- Provides expertise to assist with quick and efficient claim resolution
